

Berkeley Advanced Biomaterials LLC Exhibited in the U.S. and China Orthopedics Conferences

October 26, 2021- GNI Group Ltd. (hereinafter referred to as GNI Group) announces that its wholly owned subsidiary Berkeley Advanced Biomaterials LLC (hereinafter referred to as BAB) exhibited at two orthopedics conferences in U.S. and China: the North American Spine Society 36th Annual Meeting held at the Boston Convention & Exhibition Center in Boston, Massachusetts, U.S. from September 29 to October 2, 2021, and the 85th China International Medical Equipment Fair (Autumn) held at the Shenzhen World Exhibition & Convention Center in Shenzhen, China from October 13 to 16, 2021.

In addition to its fully-integrated pharmaceutical and oncology therapeutic businesses, biomaterial business has always been an important pillar for GNI Group and contributes a significant portion of the Group's profit. BAB has established itself as a premier brand in the industry. BAB not only has broad distribution of its products in the U.S., but it is also gaining momentum in penetrating the Chinese market, which has the world largest aging population. GNI Group will continue to invest into biomaterial business to develop new products that meet patients' needs.
